Warsaw and Cracow, Poland

INTRODUCTION

This one day course in International Commercial Arbitration is intended to provide an introduction in understanding of the principles of good practice and procedure in international commercial arbitration and offers instruction in how to organise and present information in a clear and logical manner. This specialist Introduction course is ideal for those who wish:

- » to learn more about international commercial arbitration and its benefits in resolving disputes,
- » to use techniques typical in international arbitration for domestic proceedings,
- » to enhance their existing professional skills, and
- » to join the prestigious Chartered Institute of Arbitrators and obtain professional qualifications that are internationally recognised.

The Chartered Institute of Arbitrators (CIArb) is one of the world's leading centres of excellence for the development of arbitration, mediation and other forms of dispute resolution at all levels. The Institute was founded in 1915 and now has over 12,000 members in more than 100 countries and it is a not-for-profit charity which works in the public interest through its international network of more than 30 Branches and Chapters.

The CIArb's European Branch represents the interests of its members all across continental Europe, from the Algarve to Ankara, from Sicily to Sweden, and beyond. The European Branch is therefore unique in that it offers a cross-border pan-European footprint in the dispute resolution business.

The Lewiatan Court of Arbitration is delighted to work with the European Branch to invite participants to join this unique opportunity.

The project is co-financed by the European Union within the framework of the European Social Fund
